

# AUTOMATIC MATTRESS PACKAGING MACHINE

**AP-1000** is a fully automatic mattress packaging machine. It automatically measures different sizes of mattresses and provides gap-free and quality packaging thanks to its movable side welding jaw and printing press. It offers the option of packaging with cardboard and non-cardboard mattresses, optionally with reinforced nylon. Double mouth that does not require long-term maintenance. and thanks to its resistance bonding system, it makes double rows of solid packaging welding. **AP-1000** is user-friendly with its easy-to-use operator panel.

# AUTOMATIC MATTRESS PACKAGING MACHINE

- ✓ Packing capacity of 1 bed in 40 seconds (3 beds in 2 minutes)
